EDUCATION

Terna Engineering College	Navi Mumbai, Maharashtra, India
B.E in Computer Engineering CGPA – 7.20	May 2025
B. N. N. College	Bhiwandi, Maharashtra, India
HSC, Percentage – 89.50%	May 2021
Vikas English Medium School	Bhiwandi, Maharashtra, India
SSC, Percentage – 82.20%	March 2019

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, TypeScript, SQL
Frameworks & Libraries: Node.js, React.js, Express.js, Next.js, TailwindCSS, Gemini AI, OpenAI
Platforms & Tools: Canva, Figma, Shopify, WordPress, Power BI, Tableau, Clerk, Metamask
Databases & Cloud: MongoDB, MySQL, PostgreSQL, Supabase, AWS, GCS, Git/GitHub, Hardhat
CS Fundamentals: OOPs, Data Structures, Algorithms, Operating Systems, Networking, DBMS

WORK EXPERIENCE

NullClass, Remote — Full Stack Developer Intern *June 2025 – November 2025*

- Built the MERN-stack backend for a course-selling platform, including APIs, authentication, and database schema design.
- Developed secure login/signup flows using JWT and handled role-based access control.
- Assisted frontend development by integrating APIs, fixing UI issues, and improving the overall user experience.
- Optimized MongoDB queries and backend logic to improve speed, stability, and data accuracy.
- Collaborated with team to test features, manage deployments, and maintain clean, maintainable code.

Dejorix, Mumbai — Frontend Developer Intern *January 2025 – March 2025*

- Worked at a startup, building portfolio websites and client-facing frontend projects.
- Developed clean, responsive React.js interfaces with reusable components and smooth user interactions.
- Integrated REST APIs and optimized frontend performance for faster loading and better user experience.
- Collaborated with designers to refine layouts, maintain consistent UI/UX, and fix visual or functional issues.
- Implemented efficient state management and modular component structures to ensure scalable, maintainable frontend code.

Pythonic Labs, Mumbai — Python Developer Intern *April 2024 – May 2024*

- Developed Python- and SQL-based solutions for analytics, data visualization, and API integration.
- Built projects such as Vendor Performance Analysis, Banking EDA, and Ola Data Analytics, converting raw datasets into clear reports and dashboards.
- Delivered actionable insights that improved reporting accuracy and decision-making efficiency.
- Automated multiple data-processing workflows to reduce manual effort and improve scalability.
- Collaborated with senior developers to refine project logic, enhance data pipelines, and optimize SQL queries for faster execution.

PROJECTS

FinSight (Finance Platform For Automated Expense Tracking)

Tech Stack: Next.js, TailwindCSS, Supabase, Gemini AI, Shadcn UI, Prisma

- Built a full-stack AI-powered finance platform for automated expense tracking and real-time insights.
 - Integrated Gemini AI for receipt scanning with accurate data extraction and smart categorization.
 - Designed a modern, responsive UI using Shadcn, with secure data handling implemented through Prisma and Supabase.
-

BrowseAndBuy (Student Marketplace for Books & Study Materials)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io

- Created a platform where seniors can list old textbooks/materials for juniors to buy.
 - Implemented real-time chat using Socket.io to enable seamless communication between buyers and sellers.
 - Designed a simple and intuitive user flow to make the buying and selling process fast and efficient.
-

Discord Bot (Multi-Purpose Automation & Moderation System)

Tech Stack: Node.js, Discord.js, MongoDB, WebHook, Giphy, OpenAI

- Developed a multi-purpose Discord bot with 400+ commands covering moderation, economy, utilities, and entertainment.
 - Integrated MongoDB Atlas for persistent data storage and personalized server configurations.
 - Improved an existing open-source project by enhancing performance, scalability, and user engagement.
-

ADDITIONAL EXPERIENCE

Discord Moderator & Bot Developer

Freelance | 2023–2024

- Managed large Discord communities and handled rule enforcement and conflict resolution.
 - Built custom automation and moderation bots with API integration
-

Digital Asset Transaction Coordinator

Freelance | 2024–2025

- Facilitated secure peer-to-peer cryptocurrency transactions and handled exchange rate checks.
-

Shopify Developer

Freelance | 2025

- Built and customized a Shopify jewelry e-commerce site for client.
-

CERTIFICATIONS

Hackathons & Achievements

- Electrowiz 2025 – Runner-up
- Devfolio Hackathon – Participant
- RUBIX 2024 – Top 5 Finalist

Technical Certifications

- Web Development Cohort 2.0 – Harkirat Singh
- Full Stack Python Developer – Kamal Classes
- Oracle Cloud Infrastructure 2025 – Foundations Associate
