Professional Summary

Full-Stack Software Engineer with hands-on experience building production-grade web and desktop applications using the JavaScript and TypeScript ecosystem. Specializes in React, Next.js, Node.js, and RESTful API design. Proven track record of reducing application latency, improving frontend performance, and delivering scalable system architectures in fast-paced environments.

Technical Skills

Languages: JavaScript, TypeScript, Python, C++, SQL
Frontend: React.js, Next.js, Tailwind CSS, Three.js
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: PostgreSQL, MongoDB, MySQL, Firebase, Supabase
Tools & DevOps: Git, AWS, Vercel, Render, Postman

Work Experience

Full Stack Developer Intern

February 2026 – Present

KVAR Technologies Pvt. Ltd.

Mumbai, India

- Developed and scaled a **Production Monitoring System**, implementing **RBAC for 7+ user roles** and improving system scalability, access management, and overall workflow efficiency.
- Migrated a legacy **EJS** application to **React.js** and redesigned the backend into a modular architecture, achieving a **70% reduction in API latency** through PostgreSQL query optimization and backend refactoring.
- Architected **LeadLens**, a **B2B lead automation platform** integrating the **IndiaMart API** with a custom **heuristic scoring engine**, automated deduplication, and email sequencing to streamline the end-to-end sales funnel.

Frontend Developer Intern

January 2025 – March 2025

Dejorix Tech

Mumbai, India

- Built responsive user interfaces with **React.js** and **Tailwind CSS**, improving frontend load performance by **25%** through efficient state management and component lazy loading.
- Integrated **Three.js** 3D models into web environments, resulting in a **40% increase in user engagement** while maintaining consistent **60 FPS** performance benchmarks.

Technical Projects

CourseShip – Full-Stack E-Learning Platform

June 2024 – September 2024

- Developed a MERN stack application featuring Stripe payment integration, Cloudinary media hosting, and secure user authentication using JWT tokens and Zod schema validation.
- Implemented responsive UI, instructor dashboard, and course management system supporting end-to-end content publishing and purchasing workflows.
- [Live Demo](#) | [Source Code](#)

Education

Terna Engineering College

Mumbai, India

Bachelor of Engineering in Computer Science Engineering

December 2021 – May 2025

Certifications & Activities

Freelance

2023 – 2025

- Designed and deployed custom Shopify e-commerce sites and developed automated Discord bots for community management; facilitated secure peer-to-peer Crypto transaction protocols for clients.

Hackathons & Awards

- **Electrowiz 2025:** Runner-Up | **RUBIX 2024:** Top 5 Finalist | **Devfolio Hackathon:** Active Participant

Professional Training

- Web Development Cohort 1.0 – Sheryians Coding School
- Full-Stack Development Cohort 2.0 – Chai aur Code
